A Message From Our Founder

Dear PSCDG Supporters,

For many years, I wanted to find a way to serve the community outside of my profession as a Social Worker, and in 2010, I made a deeper commitment to my community when I established PSCDG Inc. This organization was born from my passion for the community and the people I serve.

Over the past 14 years, work has become more of a mission of labor to advocate, support, and educate my community. The after-school program started with 10 students and now supports over 400 students with educational support, mentoring career planning, mental health, and fostering better relationships between youth and their parents.

In the past year, working collaboratively with our amazing partners and sponsors, our team has been able to address more of our client's most pressing needs, including reentry and substance use services and reductions in youth drowning incidents. We eagerly launched the Reentry Youth Intervention Program, Substance Abuse Reduction Alliance, and A & A Swimming Institute.

PSCDG will continue to serve the community with passion and empower our young people by opening access to life-changing opportunities. I am honored to work with an amazing staff with the same passion and vision for our clients.

Nadege Vilsaint
Chief Executive Officer, PSCDG

Health & Wellness Campaign
Mind, Body & Soul (390 female adult participants)

LOOKING AHEAD

Over the past 10 years, PSCDG has continuously improved its programs and processes based on data-driven assessments of what works best for our students. We will increase our programmatic presence in the communities we already serve and create additional opportunities for our youth through housing, apprenticeships, paid training, workforce placement, GED preparation, and additional services for system-involved youth.

We will develop new partnerships and introduce our programs to additional schools and into Broward and Palm Beach counties. We will continue to advocate for our clients and promote civic engagement from an early age. We will grow our mental health services to address the ever-growing public health crisis that disproportionately affects our target communities and break the stigma associated with mental health, and ongoing trauma and violence.

We will continue to strengthen the family unit associated with the participants and the communities we serve. We will also continue to leverage our experienced and accomplished partners and respond to community needs by offering more resources-- sustainable and culturally sensitive resources to ensure every person has the best chance of succeeding.

THANK YOU!

WE COULDN'T DO IT WITHOUT YOU.
